BARRADAS ARRESTED IN MANILA.

We are indebted to the Spanish Consul. at this port for information of the arrest of Z.M. Barradas, the absconding embezzler of the Money Order Office, by the Spanish authorities at Manila. On receipt of an application from the Hongkong Government to advise the Governor-General of the Philippines that the absconder

Barradas was supposed to have taken refuge in Manila, and to request that he be arrested and detained on a criminal charge, the Spanish Consul duly placed himself in communication with the Manila Government, and with most satisfactory results. This afternoon the Consul received a telegram from His Excellency the Governor-General to the effect

that Zelindo Maria Barradas, a Portuguese subject, had been arrested and was detained in the public prison at Manila, in accordance with the application made from Hongkong. // His Excellency further added that unless an application for the extradition of Barradas was officially made, the prisoner would be set at liberty. Needless to say that a proper application for

the surrender of Barradas, on a charge o embezzling the monies of the Hongkong Money Order Office, will quickly be made, if it has not already been done. ... It is, however, quite on the cards that the Manila Government may raise objections to handing over the precious person of Mr. Z. M. Barradas. It would appear from the Governor-General's telegram that Barradas, who evidently knows what. he is babout, claims to be a Portuguese subject, and unless this claim can be set aside it is more than likely that insurmountable difficulties may be raised as to his extradition to the Hongkong Government. The question of jurisdiction may arise, and it is hard to say what view the Manila judicial authorities will take of a case which they may decline to recognise as coming under strict international law. Of course it is to be hoped that the Governor-General of the Philippines will see his way to handing over Barradas to the Hongkong police officer who will leave here by next steamer, on prima facie evidence of his crime being adduced, as the man's guilt is as clear as the light of day; but to prevent any miscarriage of justice in case which is essentially, for many reasons, o vast public importance, we would strongly impress on the Hongkong Government the absolute necessity of taking every precaution to satisfy the requirements of the Spanish Courts, not merely as to the prisoner's identity, his crime, and his running away to evade justice; but also as to his nominal nationality. Is Barradas Portuguese subject? We doubt it very much, He has been an employe of the Hongkong Post Office for nearly twenty years, and it is more than . 1. to doubtful if his name will be found registered in the archives of the Portuguese Consulate-General in this col my, So far as Barradas personally concerned it would not matter ten 1.50 cents if he got clear away and passed the remainder of his days writing Portuguese verse in some uninhabited island in the wide Pacific; but a very much larger issue than is 0.75 represented by this miserable specimen deprayed humanity is at stake in the present inquiry. The Hongkong Post Office and its directors and managers are on their trial, and to do 1.00 it and them full justice we want the confession and evidence of Barradas. Therefore we trust the Hongkong Government will leave no stone unturned to prevail on the Governor-General of the Philippines to send us back our much lamented Superintendent of the Money Order Department by the earliest steamer available.

THE recently-published "Reminiscences of Empress Eugenie," by Madame Carette, a lady in waiting, are extremely interesting. Napoleon III. first saw Eugenie at the Paris Grand Opera at a performance of "Guilla me Tell." The Emperor wanted to get her as his mistress-a course to which he was urged by his dear friend, Fleury-but his other friend, De Morny, was all in favour of marriage. Napoleon married her a month after he first saw her. She was then 28 years old, and bewilderingly fascinating with her light golden hair and lovely sca-blue eyes,

IT is the practice of the teachers in the Washington public schools to give out to their pupils brief extracts from the best poetry, and ask them to reproduce the idea in their own language. This not only familiarizes the pupils with th best literature, but teaches them to read understandingly and to write each in his own independent style. The other day a teacher gave out the following lines from Longfellow:

He could not appeal and the delay in sailing would rain him. Train, who was a spectator, stepped forward and got permission of the court to advise the captain private. After a lapse of half-an-hour he returned, and was about to address the court, when one of the magistrates saked where the captain was. "I don't know," said Train, "he is no client of mine. A CORRESPONDENT writes :- "The Washington Post announces that the Russian Government has invited Col. Perry S. Heath, a well-known literary authority in the United States, to accompany the Grand Duke Alexis to Siberla next summer, and has offered him a 'royal pass' to visit all the prisons. It is stated that this step is taken with a view to have presented to the American people a very different description of the Siberian exile system and of the penal establishments there from that which has recently been so extensively published at home and abroad. Some years ago, under similar official patronage and guidance, an English clergyman, Mr. Henry Lausdell, was permitted to visit Siberian prisons, and with the result of a very laudatory account of them being published by that traveller. In like manner it is expected that Colonel Heath's personally conducted tour may also result in a similar eulogistic verdict on the exile system. Mr. George Kennan has been lecturing almost every night, for many months past, in the chief American cities upon the darker aspects of Siberian prison life. He has thus, as well as by his articles in the Century magazine, made a deep impression upon American public opinion; and this circumstance having become known to the Russian authorities they have decided to counteract this feeling practicable. Hence the proposal to Colone Heath. The Post states that he has not ye definitely resolved to accept the Imperial invita tion, but has it under consideration." Perhaps Lansdell will give us the truth later on. He ought to in the interests of humanity.

#### MEETING OF THE LEGISLATIVE COUNCIL.

A meeting of the Legislative Council was held yesterday afternoon. There were present :-His Excellency the Officer Administering the Government (Mr. F. Fleming); the Acting Colonial Secretary (Mr. W. THE "DOOKAL" EXPENSES. His Excellency the Administrator was glad to say that the extra sum-from two to three thousand-to which he referred on the 12th of last March had not been exceeded. The matter was referred to the Finance

Committee. NOW FOR PAIR-PLAY

His Excellency begged to mention to the Council that, in connection with financia minutes, he had given instructions for all such minutes to be forwarded to hon, members three days prior to meetings, in order that they may know what moneys are going to be asked for." appeared to him that the system in practice of reading these minutes at the commencement of a meeting of Council and asking members to agree to the sums required immediately after the discussion of public affairs, was no altogether reasonable. Hon, members could not be too careful when voting public monies, to know the reasons for which the money was demanded. It would be more satisfactory to the Government to feel that every opportunity was given to un-official members to examine the reasons on which demands were based Circumstances might arise in which money would be required to meet an emergency, and in suc cases the vote would be asked at the same time as minutes were presented in Council such cases would be quite exceptional and extreme. His Excellency said he was not in a position to answer the hon, member's first question at once, but inquiries were being mide, and he hoped to be able to lay the facts of the case before the Legislature at the next meeting. He would say, however, that delalcations had taken place which required investigation and such inquiries would be made. A STUPENDOUS DIFFICULTY. Mr. McCallum read a despatch received from the Colonial Secretary respecting a difficulty which the Board had found in regard to common lodging houses, wherein the Colonial Secretary stated that, the matter "appeared to be within the jurisdiction of the said Board." After some discussion it was decided to again refr the matter to the Governm at with further detailed explanations as to what the real difficulty of the Board was. These explanations would be drafted by Mr. Francis, who tendered his services n this connection.

THE AUDACIOUS ARCHIT. CTS. The Superintendent laid on the table a letter from the Colonial Secretary enclosing certain letters which His Excellency had received from Messrs. Danby, Leigh and Orange; Bird and Palmer, and St. John Hancock, architects in this colony, wherein the writers protested vigorousl against the tenour of the Superintendent's report

Mr. Francis indirectly asked Mr. McCallum for explanations; but before he could speak Mr. Chadwick stated that it appeared to him matter for which the Board, as a body, was full responsible, seeing it had posted the report.

In this opinion Mr. Francis concurred, adding that after carefully perusing the report he had arrived at the conclusion that the gentlemen who wrote the letters had found much more in the report than he could discover. 'He did not think the complaints were at all justifiable.

Major-General Gordon said he quite agreed with Mr. Francis. It was contended that Mr. McCallum had cast serious reflection upon the architects of Hongkong; but, so far as he could see, the Hongkong architects were no specially mentioned, the remarks encompassed architects generally. He could see nothing the report to afford reasonable grounds for these architects' complaints." It was, be knew, always dangerous to allude to a particular class of people, but the observations did not bear unfairly upon Hongkong architects, "He submitted that all Hongkong government officials get "hard hit" at times, are subjected to abuse in the newspapers, but always take it quietly. Then, how much more should these architects. who are not lofty Government officials, submit tamely to unqualified criticisms by tankerous, crochety, officials?-Ed: He thought the conduct of these architects was quite unjustifiable.

The President considered that Mr. McCallum should have an opporturity of replying to the architects' billets doux; but Mr. Francis thought such a course could only be adopted in the event of the Board being dissastisfied with the Superintendent's report. He again submitted that there was nothing in the report which called for explanations. The complaints of the architects were made without sufficient reason:

The Colonial Surgeon was of opinion that what Mr. Francis had said was O. K. and that the architects seemed desirous of fitting the cap

on their own heads (laughter). The Vice-President then moved "that this Board having read the Sanitary Superintendent's Report and the whole of the correspondence in connection therewith, is of opinion that there is nothing is the report to justify the complaints

Mr. Francis seconded and it was carried nem.

YAU-MA-TI'S NUISANCES. Regarding the petition of the residents of Yau-ma-ti, wherein the petitioners sought for the removal of the boats' breaming grounds because they were deemed a nuisance, Mr. Francis explained that the breaming operation was not in itself a nuisance; it was the filth and rubbish thrown out by the boats at time of breaming:

(burning) that caused a nuisance, and it was this collateral nuisance that should be guarded Dr. Ayres-The boat breaming is no more of

a nuisance than the docks. No notice was taken of the Doctor's profound remark and the matter ended in a resolution to the effect, "that the Board saw no reason for removing the breaming ground from Vau-ma-ti. and had no objection to the extension of the ground to the northward, but considered the site suggested, to the south, as unsuitable," which was carried unanimously, det.

G. STEWART, Auditors, ENGINEER'S REPORT. Hongkong, 10th May, 1790.

To the Directors of the Hongkong Electric Company, Limited. Gentlemen, -Soon after the Company was started in February, 1880 Instructions were sent home to Messrs. T. A. Gibb & Co., London, to enter into negociations for the necessary machinery and plant for supplying the Electric Light, and J. W. Hart, Esq. M.I.C.E., was appointed the Company's Consulting Engineer

in London: After negociations with Messrs, Johnson & Phillips, their tender was accepted on the 25th May, 1889, and the contract was signed When I arrived home during the first week in July, considerable progress, had-already been made in the designs of the machinery, much of which was specially designed for the Company. During the Autumn of 1889 considerable delay was experienced in obtaining raw materials for manufacture, both owing to the numerous strikes

On I all the heavier parts of the machinery, including May 5th, the lymph was put to a further test by 1 3 Engines and Boilers have been taken up to

Two Assistants also arrived in the steamship Benlarig and are at present engaged in from the Teddywaddy Blister, as follows:superintending the cleaning and fitting together of the various parts of the machinery; -an pondent at Bendigo a sub-marine cable anengine fitter is expected to arrive here in a few

weeks time. When I arrived in Hongkong on the 17th March, 1890, I found that the buildings had been delayed by the unfavourable weather of January and February. Since then, however. the weather has been more favourable, and good progress has been made; it is hoped that every part will be roofed in before the heavy rains commence. The work of building the foundations for the Engines and Dynamos, also the guessed that leader of ours on Bully Bismarck settings for the Boilers, will be commenced immediately.

With reference to the Street Lighting with Arc Lamps, the Government have promised the Company a contract for 50 lamps, and the Hon. the Surveyor General is at present deciding the positions where these lamps may be placed to the greatest advantage. As soon as this is done, the work of erecting the poles and lines will be proceeded with without delay, and it is hoped that the Company will be in a position to supply

the light by October. The Government had also entered into a provisional arrangement with the Company for the supply of water to the Peak district. During last Autumn, however, they decided to adopt another scheme for pumping, and to carry it out themselves, compensating the Company for any loss they might incur from the withdrawal of the work. It has since been decided that the compensation is to take the form of an increased number of lamps for street lighting, 14 lamps

being the extra number agreed upon. The Electrical Machinery that has been provided, both for the Arc lighting and Incandescent lighting, is of the best and latest pattern, much of it having been specially designed with a view to withstanding the trying conditions of the Hongkong climate. As these climatic conditions have been constantly kept in mind during the manufacture of the plant, it is confidently expected that all the troubles that have been experienced in other places, have been guarded

In order to ensure a steady and reliable service of the Electric Light (both Arc and Incandescent) it is intended to always keep an Engine and Dynamo in constant readiness for use, should one of those working fail from any

The safety of the consumer has also been specially considered, and to that end all apparatus, which it is necessary to place in houses and is likely, in any way, to prove a source of danger if meddled with, has been provided with cast iron

air-tight cases. The Company have obtained a supply of Meters of the same class as those which are now being extensively used by the large London Companies, and which have so far given satisfaction. In order to insure that their indications continue to be accurate, the Company have purchased a set of the latest pattern Standard Measuring Instruments, by means of which all Meters will be checked periodically.

I am, Gentlemen, Your obedient servant, W. H. WICKHAM, Manager.

THE RAWANG DIRECTORS.

THE DIRECTORS AGREE TO PAY \$725. THE MANAGER'S CALLS REMAIN UNPAID. DEFICIT OF \$22,000.

The Straits Times reports that on the 8th inst., in Chambers, before Chief Justice O'Malley, at the finstance of the official Liquidator of the Rawang Tin Mining Co., three summonses came on against the Directors of that Company. first summons sought to make Messrs. J. Davidson, Theo. Sohst, T. S. Thomson, C. C. N. Glass, and Lee Keng Yong liable to contribute to the assets of the Company the sum of \$5,101.09 as being improperly paid by them on the 1st February, 1888, to Mr C. C. N. Glass, for the purpose of converting 500 fully paid-up shares then standing in Glass's name into ordinary shares of the Rawing Co. which then had \$10 paid up on them. The second summons sought to make Messrs. Sohst, T. S. Thomson, C. C. N. Glass, and Lee Keng Yong liable for \$1,250 paid by them on the 23rd March, 1889, to Mr. John Muir, to convert 250 fully paid-up shares standing in the name of Muir into ordinary shares which then stood at \$15. The third summons was t make Messrs. J. G. Davidson, T. Sohst, T. S. Thomson, and C. C. N. Glass, liable to contribute \$500, being the amount repaid by them on the 9th August, 1889, to Mr. John Muir, to convert 100 full paid-up shares then standing in his name into ordinary shares.

Mr. Napier appeared for the Official Liquidator, and Mr. Nanson and Mr. Bailey for the Directors.

Mr. Napier asked the Chief Justice to sanction an agreement to compromise these summonses. on payment by the Directors of a sum of \$725. From an affidavit filed by the Official Liquidator it appeared that he only intended to ask for an order on the respondents to pay the difference between the amount paid by the respondents to Messrs. Glass and Mult, and the amount repaid to the Company by the present or past holders of the shares. The affidavit then went on to give the particulars of the claim, and the Official Liquidator believed that such a compromise would be beneficial to the Company. If the compromise was accepted, the \$375 dus to the Company by John Muir will have been repaid, and also the sum of \$350 due by F. G. West and J. L. Welch, and the sum of \$500 due in respect of shares held by John Hunt only will remain unpaid. The Liquidator proposes to recover the sums due on the shares held by John Hunt. After some discussion the Chief Justice sanctioned the compromise.

SHAREHOLDERS IN DEFAULT. Mr. Napier, on behalf of the Official Liquidator, then applied to have settled what is called the "B" list of contributors, which is the list of members, who, having ceased to be members o the Company within the year before the date of the winding up, still remained liable for calls on the shares, which have not been paid up by the present shareholders. From an affidavit by Mr. Homby it appeared that the whole of the present shareholders had paid up with the exception of John Muir, who still remains on the register for 200 shares, and John Hunt of Office over the Hongkong Dispensary, Hongkong who remained on the register for 100 | SATURDAY, the 24th instant, at NOON, for shares. It appeared that some correspondence the purpose of receiving the Report of the had taken place between Mr. Hornby and John | General Manager, together with a Statement of Muir, and that Mr. Hornby had been unable to | Accounts to the 31st December, 1889. recover the amount due by Muir. Instructions had been sent to Hongkong to sue John Hunt | CLOSED from THURSDAY, the 22nd instant, on these calls, but Hunt had written to say that he had absolutely no money to pay these calls and he was compelled to ask for time. From the balance sheet made out by Mr. Hornby, it appeared that approximately the claims of creditors and costs of winding up the Company would amount to about \$78,745, whilst the amount actually received by the Liquidator amounted to \$56,513.87, including the estimated value of a safe. The Court then gave leave to settle the "B" list of contributors.

Our renders will remember that on that occasion we gave the large, quart-sucking German autocrate particular beans; we let him know what the people Teddywaddy took him for without re-

servation, and we flatter ourselves we made Mr. Bismarck feel his spasms coming on pretty bad. The Blister has been bitterly opposed to Bismarck ever since its inception, when we were jewed out of the price of a first-floor front advertisement by a low-lived, circus-shaped, polony worrying, German hawker, but we hardly expected to wind him up so soon. We may remind our advertisers that, though the Blister's influence is keenly felt in European political centres, our rates still remain almost as low down as a toad in a quartz lode."

"Mick Morrisey, the mahogany-complexioned rabbit scalper of Mt. Deboobetic, gave a spread out at his miserable hark humpy on Saturday night last, when he raffled a rusty, worm-eaten, warped, old King William shot-gun, worth eighteen-pence to a cheap museum, for five pounds, there being forty members at halfa-crown a shot. Morrisey did not seem to consider it worth his while to extend to us the usual Press privileges of a throw for the musket and a free hand in the revels, but we were on the spot and had the pleasure of seeing his red-headed, freckled daughters bounding round in the airy dance like so many wild kangaroos in a branding yard, while their mother, who weighs half-a-ton, drank two gallons Hawker's whiskey in the kitchen, and then fell on Wattle-bark Stephens and injured his ribs. Morriscy's raffles are plways wanting in tone and style; none of our best people would be seen at a shivoo where the corn-beef is as black as a Tatcher gin and as tough as a red-gum sleeper, and where the M. C. wears shearing breeches and looks like a Tasmanian leg out on probation. There was nothing bon ton or recherche, about the spread, and the dresses were late in the day ten seasons back, though, no doubt, Mrs. Morrisev imagined she was a swell daisy in a decollette overcoat and a pair of Mick's cast-off bluchers. We advise Steve Green, who won the gun, to rent a Chinaman to let if off for him to save the expense of a death in his family."

The subjoined paragraphs are selected from the Blister's " News of the Day :"-"We believe in church-going as a general thing, and encourage our readers to be regular at their devotions and to remember the plate, and whenever space permits we throw the hot edges of the Rev. Banger Baxter's sermons into our paper, but we want to remind Mr. Joseph Hacket that he can't try to figure as a gentleman. by attending church in a new nailkeg hat and thirty-shilling finger-ring, while he owes us for his wife's funeral notice, two obituaries and a

year's subscription. "Three weeks' ago Mr. Abel Beuder, J.P. fined us five shillings for lying down in Fergusonstreet to think out the European situation; last night he was carried home from the Stockman's Arms Hotel on a shutter. If Mr. Bender has a head on him this morning he might show some sense by fining himself five shillings when he takes his seat on the Bench-it will be a change for him to have a head anyhow.

THE great value of Scott's Emulsion of Pure Cod Liver Oll with Hypophosphites in Wasting Diseases is shown by the accompanying statement from D. C. Freeman, Sydney, Aust.;-Having been a great sufferer from pulmonary attacks and gradually wasting away for the past two years, it affords me great pleasure to testify that the above medicine has given me great relief, and cheerfully recommend it to all suffering in a similar way to myself. In addition I would say that it is very pleasant to take." Any Chemist can supply it.-A. S. Watson & Co. (Ltd.) agents in Hongkong and China. - [Advi.
